

CAMPER Model Evaluation

Critical or Creative?

The CAMPER model allowed me to deconstruct one of the sources I planned to use for my annotated bibliography and evaluate its usefulness, making it a critical thinking strategy.

Evaluation:

The CAMPER model was helpful for giving me a greater knowledge and understanding of my sources for research. Using the CAMPER model I separated the key ideas from my source as well as assessing its usefulness, relevance and reliability, which will greatly assist me in drafting my responses for my annotated bibliography. As well as this, the CAMPER model assesses the strengths and weaknesses of the source, which shows which aspects of research will be most ~~beneficial~~ accurate and beneficial to my product. Overall, the CAMPER model was effective for assessing and deconstructing different aspects of my sources.
